## SOUTH HUMBUG DEAL CLOSED UP

Franklin Syndicate Will Pay \$300,000 for Tintic Mines.

UNCLE SAM GETS \$250,000

AND MESSES. EVANS AND KNIGHT \$50,000.

The powerful syndicate at the head f which the doctor stands has issued the edict that the option he holds on

the edict that the option he holds on the Unile Sam possessions hereafter enumerated, including the claim owned by Davd Evans and Jesse Knight, be closed up and on or before Tuesday next the Uncie Sam company will receive \$250,000 and Messrs. Evans and Knight \$50,000 and ditles to the territory lying south of the Yankee Consolidated will be passed over.

The ground includes the south half of the original Humburg patential claim, the Cyrus Oliver, the Nevada Fraction and 400,000 of the 500,000 shares in the Richmond-Anaconda company, owning the Little Lyon, Anaconda and Mountain View claims—all of which were the property of the Uncle Sam Consolidated company—and the Salvator claim, belonging to Messrs. Evans and Knight.

claim, belonging to Messrs. Evans and Knight.

All the territory described forms a solid, compact block adjoining the possessions of the Yankee Consolidated on the south, and, according to the report of Dr. Walter P. Jenny, the eminent expert, the same great mineral belt that traverses the Yankee extends through the entire length of the "south ground" for a distance of over 1,600 feet, and the vein is developed in ore for more man 1,300 feet southerly from the Yankee mine boundary.

The closing of this important deal will give the Uncle Sam company funds sufficient to declare a 50-cent dividend on its capital stock, and leaves it in possession of the Uncle Sam claim, 600x1,500 feet, and one or two contiguous fractions, all lying on the west side of the May Day.

It was after 4 o'clock when Dr. Franklin announced that the options held by his syndicate would be exercised, and as he had to prepare to leave for the Yankee immediately afterward, he had not the time to discuss what plans would be formulated for the future handling of the property, further than to say that it would not go to the Yankee company.

capital associated, for a big group of claims at Ely, Nev. The transaction involves \$500,000 and the amovacement is made that the property will be un-der the management of Joseph Giroux, manager of Senator Clark's United

The property comprises fifty claims. The ore is copper and gold, the copper ranging as high as 30 per cent, and having been uncovered in such large bodies that Manager Giroux of the United Verde pronounced the mine phenomenal. The syndicate associating with the Denver interest will nowbe responsible for development upon a large scale at different points on the ore bodies, and plans are being drawn for a 400-ton smelter. A railroad to Eureka will be commenced as soon as the ore is in sight for an output of 400 tons a day.

Black Cinder to Resume.

What has been generally designated by those in touch with the principals as the "South Humbug" deal is to be consummated after all, as Dr. P. A. H. Frarellin received advices from the east yesterday that settled the fate of the undertaking beyond question.
